

## *DRA PHC and Policy Manager*

**Switzerland, Basel-Country, Reinach**

Better outcomes for more patients faster

This slogan represents our vision which thrives us worldwide to develop even better solutions for our patients.

As DRA PHC (Personal Health Care) and Policy Manager you will work directly for Roche Pharma (Switzerland) AG, an affiliate of the Roche Group with domicile in Reinach (BL) (Switzerland), in which 180 employees are employed.

We in Reinach cover Marketing & Sales, Medical Affairs, Market Access & Health Care Affairs, Governmental Affairs and Quality Assurance for the Swiss market.

Thanks to our performance-oriented entrepreneurial employees and our strong customer focus, we are able to release new innovative solutions every year for our patients in Switzerland.

### **Your responsibilities:**

In the function as a DRA PHC (Personal Health Care) and Policy Manager in the Swiss affiliate, you are responsible for:

- ensuring the adherence to the regulatory requirements with (pre) launch PHC activities
- delivering consulting activities to the entire affiliate regarding issues of delimitation between medical devices and medicinal products
- ensuring the adherence of the DRA group to the regulatory requirements in the area of medical devices
- development and optimisation of processes of the DRA group in connection to medical devices
- regulatory support of the disease area PHC and collaboration in medical and commercial projects
- management of competitive intelligence projects in the field of DRA
- organisation and coordination of product agnostic pipeline/portfolio meetings with the health authority
- registration of new products/molecules in the PHC area

### **Your requirements:**

- excellent knowledge of the medical device regulations and law (CH, EU, US) and practical experience in this field
- solid knowledge of the trends in modern diagnostics
- knowledge of the political environment of Switzerland
- crossfunctional teamplayer
- excellent selforganisation and communication skills
